

The bodies responsible for advancing education within Scottish Golf have formed the **Scottish Golf Education Group**. The group ensures there is a full calendar of CPD & educational events for members of **all organisations to assist their clubs**.

Our next seminar in the 2012 calendar is as follows:

## Rabbit & Mole Control

We will be running the below course on **Thursday 9<sup>th</sup> February 2012** at the **St Andrews Links Practice Facility**. The course will begin at 09:30 and will run through to approximately 1500.

On completion of this course a certificate will be awarded which is now required to purchase and use aluminium phosphide based products.

The cost is £100 per person +vat.

I can now take reservations for the course which would be invoiced nearer to the date. We have had a lot of interest in this so please book early to avoid over booking. If we feel we need to put another course on to meet demand we will do this.

Please feel free to contact me if you require more information.

### Rabbit & Mole Control

Talunex and Phostoxin should only be used by a professional operator trained in the safe use of aluminium phosphide.

Regulations require the customers must have certification to order and take delivery of Talunex or Phostoxin.

Working in conjunction with leading providers of pest control training, Sherriff Amenity are able to offer half day courses nationwide, throughout the year.

The agenda includes:

- The biology and life cycles of Moles and Wild Rabbits
- Practical control measures
- Legislation covering the use of Vertebrate Control Agents
- Badger protection
- Talunex & the Topex Applicator

To book your place please contact Kenny Liddell – [Kenny.Liddell@agrovista.co.uk](mailto:Kenny.Liddell@agrovista.co.uk) to book your space and avoid disappointment.

More details of future events can be found at [www.biggacentralsection.org.uk](http://www.biggacentralsection.org.uk)
