

SCOTTISH GOLF AFFILIATION FOR PAYMENT MARCH 2019

An increase in affiliation fee to £15.00 per member is proposed. If approved this fee would be payable by clubs based on their playing membership as at 30 September 2018 and invoiced by Scottish Golf for payment by 31 March 2019.

As previously advised, the investment grant from **sportscotland** has been reduced in the current financial budget by £300,000 and this increase will in part cover the resultant shortfall.

The remaining income from the affiliation increase will be invested in front line services for clubs to help retain and grow their membership during these challenging times.

In the year ahead Scottish Golf is committed to generating additional investment in the game on behalf of our membership and will strive to work with clubs, counties and areas to build revenue streams to support clubs in the years ahead.

It is our intention to report progress on our investment strategy at our second National Conference for all stakeholders at the end of the year.
